

MAC Setup Instructions

1. Download Iridium AxcessPoint Mail & Web software for your MAC laptop.
2. Connect your Iridium AxcessPoint device to your Iridium satellite phone with the included USB cable.
3. Set up the phone in an outdoor area with open access to the sky and adequate signal strength prior to use.
4. Turn your Iridium AxcessPoint device switch ON when attempting to establish a Wi-Fi hotspot. When two of three lights on the Iridium AxcessPoint device are green, you can connect your Wi-Fi enabled device and use your Iridium AxcessPoint Mail & Web to send emails and browse the Internet.
5. Open Iridium AxcessPoint Mail & Web on your MAC laptop.
6. Login with the username and password provided with your registration email.

Only one communications company connects the entire globe

Iridium commands the world's furthest reaching network, making it the only truly global communications company with solutions that span from pole-to-pole. Iridium voice and data products provide superior communications solutions that allow global companies, government agencies and individuals to stay connected everywhere. With a unique, global ecosystem of partners, Iridium continues to create new, high-value capabilities that are leading the world into a new era of communication.
