

Iridium Certus® for Remote Wind Connectivity

Satellite

Remote Operations Center

-  Weather Resistant Data Reports
-  Near Real-Time Data Transmissions Enabled by the Fastest L-Band Speeds

Antenna

Sensors

Terminal

Laptop

Smartphone

On-Site Repair Technician Connectivity

-  Internet for Field Service Applications
-  Up to Three High-Quality Voice Lines

Remote Turbine Telemetry

-  Sensor Connectivity (i.e. Vibration, Weather Data)
-  Alert Capabilities
-  System Reporting
-  Acoustic Monitoring
